presentation booths
for conferences and congresses

We will design and build a presentation booth tailored to your needs!

Our professional team will take care of you from the first design of your stand by our experienced architect, to the professional and precise implementation by our technicians at the event location. Everything is turnkey, including transport, installation and dismantling.

We have 20 years of experience in the field and we will be happy to share it with you.
We look forward to working with you.

our services:

TRANSPORTATION

We use our own road transport throughout the Czechia and abroad.

INSTALLATION

We provide delivery and professional installation of rented equipment.

SERVICE 24/7

We carry out deliveries and installations even at night and on weekends.

DESIGN

We provide professional consultations and designs, including visualizations.

GRAPHICS

We will print graphics on your presentation surfaces.

QUALITY

Our equipment has regular maintenance and the highest quality control.

our references:

ZÁPŮJČKA.CZ worked with us to build EXPO at GDS Prague 2024. In addition to the fact that it looked great, the textile walls were really nice, I also really appreciated the speed of construction, the operational solution of problems, and the smooth communication before the event.

Thank you, it is a pleasure to work with you.

Adam Pešta, Active Radio, 2024

ABRA Software customer: always a quick and trouble-free agreement. The people from Zápůjčka always try to comply and find the best solution. There has never been a problem. We have been working together for several years and we are still happy to return.

Petra Bendlová, ABRA Software, 2024

We were very satisfied, friendly and quick dealings, customized solutions - no problem. I recommend.

Lucie Doušová, Avery Dennison, 2024
